PROJECT

Status:	Completed
Contractor:	Kin Sun Construction
Site Area (m2):	1 480
Construction Area (m2):	2 491
Construction Cost (Million MOP\$):	15.3

The design is simple and yet well satisfying all the functional requirements of the school. A new auditorium consisting of a 4 storeyed building, accommodates 300 audiences and a roof terrace for leisure.

One additional floor was added to the existing school block to cater for 10 more classrooms with an accessible roof.
