PORTO WINE 75cl

PORTO WINE 37.5cl

PORTO WINE 75cl

Producer CONCEITO

The methods used to cultivate the wine and our vast knowledge of the Douro region were the starting points for this project and the inspiration for our story, which is why we chose the Portuguese word for Concept — Conceito—as our name.

Port wines have all but monopolized wine production here since the 18th Century, producing a landscape of extraordinary beauty. Only recently, however, have people become aware of the tremendous potential of Eastern Douro due to the establishment of better access routes and the comeback of table wines . It has been this latter factor that has been largely responsible for the rise of an entire universe of different varieties along the riverscape, and this huge valley can no longer be seen and cultivated as a single and homogenous landscape.

Wines will inevitably come to exhibit the characteristics of their specific terroirs and understanding them, as well as properly utilizing the widely differing altitudes, soils and microclimates is a journey from which there is no turning back, and one upon which we have wholeheartedly embarked, in the never-ending search for freshness and equilibrium in our lands.

This is what we believe in, this is our Concept!

Ref: CON006

OLD TAWNY PORT WINE 10 YEARS

Producer
CASA DE SANTA EUFÉMIA

The Casa de Santa Eufémia winery was founded in 1894 by Bernardo Rodrigues de Carvalho and is located on the left bank of the Douro river at an altitude of 300 meters between Peso da Régua and Pinhão, in the heart of the oldest demarcated wine-producing region in the world: The Douro. This is a region of secrets and unmistakable aromas and the 40 hectares which make up our estate are no exception. Grown on schist terraces, 80% of the grape vines contain red grape varieties such as Tinta Barroca, Touriga Francesa, Tinta Roriz, Touriga Nacional, Tinto Cão and Tinta Amarela, which are harvested mechanically and the remaining 20% are white wine grape varieties such as Malvazia Fina, Malvazia Rei, Moscatel Galego and Cerceal, which are farmed according to traditional methods.
